SUMMARY

Motivated and passionate 6th semester Software Engineering student at PAF-IAST with hands-on experience in web development, WordPress customization, website deployment, and backend learning using Python and FastAPI. Developed and managed real-world client websites including e-commerce and business platforms. Currently learning AI Agentic concepts and machine learning fundamentals with a strong interest in building AI-powered and scalable software solutions. Skilled in problem-solving, adapting to new technologies, and working on practical projects that solve real-world business needs.

WORK EXPERIENCE

Web Development Intern Jun 2024 - Aug 2024
Worked on website development and customization using WordPress and front-end technologies. Assisted in building responsive websites, managing website content, fixing UI issues, and handling basic hosting and deployment tasks. Gained practical experience in client requirements, website maintenance, and improving user experience.

Digital Marketing Intern Jun 2025 - Aug 2025
Worked on social media marketing, content management, and online brand promotion strategies. Assisted in improving digital presence through marketing campaigns, audience engagement, and basic advertisement management. Learned practical skills related to branding, customer engagement, and online business growth.

PROJECTS

- Bookstree.pk** Developed ongoing online bookstore platform with WooCommerce, hosting, customization, and deployment.
